Vinyl Clamp Linear Drainage.

Stainless steel linear drainage designed for vinyl floor installations.

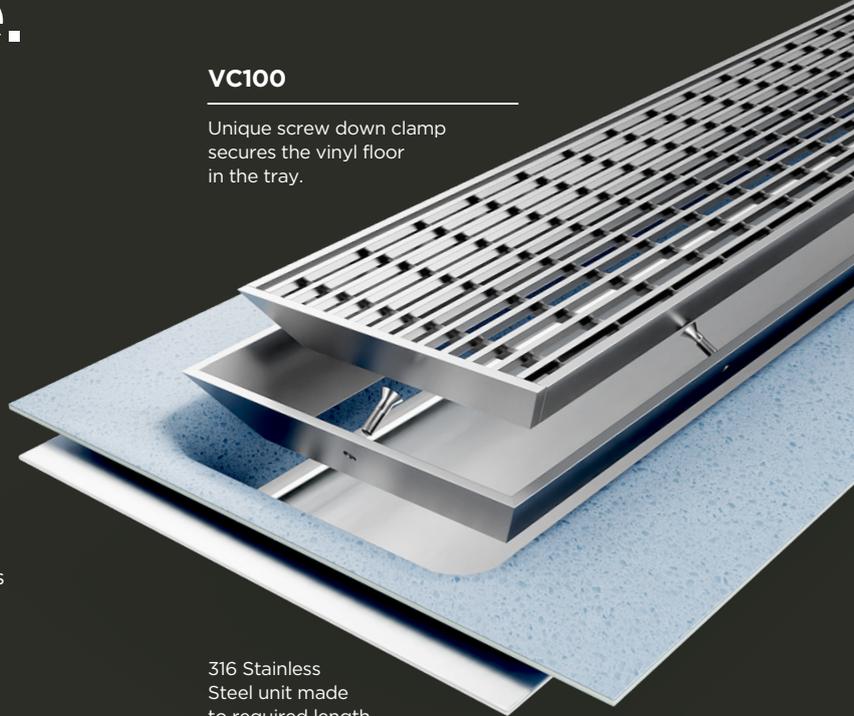

Stormtech's Vinyl Clamp range is an innovative linear drainage system designed for vinyl floor environments such as **Hospitals, Aged Care, Commercial Kitchens and Schools.**

Manufactured in Australia, from marine grade stainless steel, Stormtech's Vinyl Clamp drainage features a wedge wire architectural style grate. The unique, durable design mechanically clamps to the vinyl, and angled channel walls increase the life of flooring by reducing vinyl stress.

Choose our Made-to-Length units or talk to us about custom specifications to suit your requirements.

VC100
